Course Outline

Seminar Content

3 hrs online webinar will provide the concepts of Lean and how it has affected the marketplace. This course provides an overview of the basic concepts and benefits of a "Lean" implementation to allow the participant a basis for evaluating various Lean methods to add value, reduce cost and improve quality in manufacturing and business processes.

Who Should Attend

This seminar is designed for senior managers, department managers, key process owners, implementation team members to understand the basic concepts of the Lean Philosophy.

Seminar Goals

- Provide strategies to Senior Management on how to improve costs and become competitive
- Have top management understand how Breakaway Lean can work for them
- Understand the steps needed to adopt Breakaway Lean

Seminar Outline

- Introduction to Lean and Six Sigma
- Breakaway Lean
- Commonly Used Lean Tools
- Lean Implementation Process
- Roles and Responsibilities
- Planning the Implementation
- Lean and Six Sigma Case Studies
